

Maintaining our focus. Extending our reach.

Our research focuses on solutions for patients in select therapeutic areas. We've gained in-depth knowledge about specific diseases of the central nervous system. And now we're moving into new areas including oncology and addiction therapies.

Applying the best science and smart business principles. Opening new markets worldwide. Meeting unmet medical needs.

Driven to make a difference. www.cephalon.com

Create profound impact. Deliver lasting value.

Our therapies make a real difference in the lives of thousands of people. We deliver medicines to treat cancer, pain, addiction and neurological diseases. And we dedicate ourselves to creating new value through discovery research.

Groundbreaking therapies. Market-leading drug delivery systems. And a growing global reach. Our vision is bold; our people are passionate. We seek to create profound impact on human health.

Expect nothing less. www.cephalon.com
